

ETF Railway Section – Maintenance Workers

Efficient and professional maintenance

Light and heavy vehicle maintenance

Vehicle revision, reconstruction and reparation

ETF Railway Section – Maintenance Workers

Advisory Group

All European railway unions with activities in vehicle maintenance hold a yearly meeting in mid-February at the ETF headquarters in Brussels.

Furthermore, a Steering Group has been founded in order to prepare upcoming activities and revisit past ones. This group meets three to five times per year, depending on the level of activity.

ETF Railway Section – Maintenance Workers

Steering Group		
President	Werner Schwarzer	SEV – TS; Switzerland
Members	Manfred Scholze	EVG; Germany
